

# Erlenbacher

Passion & Cakes since 1973

## THE PLEASURE OF CAKE „JUST IN TIME“

*Simple,  
quick and  
flexible*

## FROM FROZEN TO READY FOR SERVING

You probably know it: In busy times, you need quick preparation solutions. For these cases, we can offer you a varied range that meets all situations. Take directly frozen out of the pack and defrost in the microwave or in the oven and even serve directly warm if desired.

**Take out  
the cake,**

**thaw it,  
serve it,  
done!**

## DID YOU KNOW THAT

- ... the human sense of taste is most pronounced at temperatures between 30 and 35 °C?
- ... the intensity of sweet flavours develops much faster if the food is hot?
- ... simple, delicious smells have a subtle effect making a room more inviting?
- ... there is evidence to suggest that the sense of smell can influence emotional decisions and encourage people to make a purchase?

**Ask your customers if they would like their  
cake warmed up!**

# MAXIMUM FLEXIBILITY BY MAXIMUM COST CONTROL AND PLANNING SECURITY

## ECONOMICAL AND ENVIRONMENTAL

The fact that you can thaw individual pieces of cake in no time as and when you need them is not only ecological but also economical.

## EASY TO HANDLE

All you have to do is take it out of the packaging, place it in the microwave, thaw it for a short time and serve it straight away – foolproof, even for untrained service staff!

## READY IN NO TIME

Thanks to microwave technology, single pieces of cake thaw completely in no time and do not require any extra defrosting.

*More flexibility,  
more sales*

# ...THESE CAKES MAKE IT ALL POSSIBLE

\* Thawing times based on thawing individual pieces using the 160 W defrost programme on your microwave. These times are guidelines only and may vary from device to device. Individual tests to check the temperature in various parts of the cake are recommended.  
Thawing time: Thawing time until the individual piece of cake has reached a temperature of around 8°C (fridge temperature).

\*\* Thawing times refer to thawing a whole cake at 180°C in the oven.  
Thawing time: Time to thaw until the cake has reached a temperature of 20°C to 30°C. Suitable for serving at room temperature.
